## About the College and Department

Raghunathpur College, a Govt. sponsored general degree college at Raghunathpur town in the district of Purulia, was established in the year 1961. It is affiliated to Sidho-Kanho-Birsha University and recognized by University Grant Commission under section 12(b) & 2(f). It offers mainly undergraduate courses both honours and program in arts, science and commerce stream.

Department of Chemistry is one of those few departments, which were established soon after the inception of this college. Right from the beginning, students of this department have been placed at various Institutions/Universities in India and abroad of high repute for pursuing their MSc, Int PhD or PhD program. In addition to teaching, the department is paying attention to basic research working independently and in collaboration with eminent researchers in India.

## Aim of the Seminar

Human life is inseparable from Chemistry. Chemistry is often referred to as central science. The role of chemistry in benefitting mankind and rest of the life forms in the earth is indisputable. Advancement in this 'central science' will offer solutions to global challenges ranging from food production, sustainable energy to human and environmental health. The main aim of this seminar is to bring scientists working in chemistry under one umbrella to discuss the recent developments in the field and future trends. This gathering will serve as an ideal platform for budding researchers i.e., MSc, Ph.D. students to enhance their knowledge and understanding and provide an opportunity to interact with eminent scientists in India.

## Invitation

We are honoured to inform you that the Department of Chemistry, Raghunathpur College in collaboration with Alumni Association of this department is organizing a one day national Seminar on "Contribution of Chemistry to the Well-being of Mankind" on 20<sup>th</sup> March, 2020 at Raghunathpur College.
