

Report of the State Level Workshop on Data Analysis and it's Uses in Research

This workshop, taken place on 6th May, 2024, has been adopted to encourage positive attitude towards research. This is developed throughout the organisation and ethos of teamwork of Department of Economics and IQAC, Raghunathpur College. Dr. Panchanan Das, professor of Calcutta University, is the invited speaker who himself promote different research work focuses on rules and procedures of handling data in the research. He points out the lapses on part of the researcher. Dr. Saptarshi Chakraborty, principal Panchakote college advised the researcher participants to be selective which data would be compatible with their research. Dr. Srinibas Nandy suggests the researcher to ensure that data from external sources will be effectively collected before adopting research programme. Thirty delegates from different colleges has participated in the seminar. Dr. Jyoti Prakash Mandal, IQAC coordinator, extends gratitude towards Mr. Biswajit Chakraborty and Mr. Pralay Kundu for assisting him in smooth and fair conduction of the seminar. Feedback also be taken among the teachers, staffs and bonafide students. Adminstration of college provides timely correspondence relating to research as and when required.
